

Portfolio

I want to make a portfolio that shows who I am, what I do know, what I have done and what I'm currently learning.

I want to be very precise and don't do anything that is not necessary enough.

The UI will be clean, easy to read and beautiful. (Also, there will be bright and dark modes)

The buttons, images and boxes will be similar to colors interface:

In the top will be a navigation bar that contains: "top", "skills", "projects" and "Contact Me"

button. when a button is clicked the user will be scrolled down to that section.

My main information will be in the top-center of the screen and won't use too much space. My description will be "Web developer" and a button below that says "see my work".

Below will be a list with my tech skills, things like HTML, CSS, JS, Angular, Git, NodeJS, etc.

Next there will be a little section "My languages" containing "English" and "Spanish"

then the "Projects" section comes in with a grid of my most relevant work. Each element will have an image, name, a very short description and a list of the technologies used to build that project. When the user clicks will be redirected to the website (in a different tab).

Finally there will be a contact section, the user will be able to see my github, linkedin, discord, Twitter (TODO: update discord and twitter to seem more professional) and send me an email.

Color palette

- White #ffffff
- blue light #e5f0ff
- blue #0066ff
- gray dark #464863
- gray light #f7f7f8
- black #000000
- green dark #138161
- green light #c7f5eb

Font family

Roboto or Inter (TBD)

```
<link rel="preconnect" href="https://fonts.googleapis.com">
<link rel="preconnect" href="https://fonts.gstatic.com" crossorigin>
<link
href="https://fonts.googleapis.com/css2?family=Inter:wght@100;400;700;900&family=Roboto:wght@100;400;700;900&display=swap" rel="stylesheet">
```

or

```
<style>
@import
url('https://fonts.googleapis.com/css2?family=Inter:wght@100;400;700;900&family=Roboto:wght@100;400;700;900&display=swap');
</style>
```

```
font-family: 'Inter', sans-serif;
font-family: 'Roboto', sans-serif;
```

More details

- Buttons will have 8 to 10 px border radius.
- Buttons will have 2-3px border width
